

VOLT POLSKA CIRCULATION PUMPS

OPTI

OPTI ECO

VOLT POLSKA circulation pumps from the **OPTI** and **OPTI ECO** series are devices designed for forcing liquid circulation in heating and solar heating installations. OPTI pumps are cast iron models, equipped with a 3-stage mode switch. The OPTI ECO series is additionally equipped with a clear display and electronic pump control, and has **very low power consumption** during operation. The devices in this series are completely safe for your installation, and their use does not involve any risk.

Advantages:

- Simple assembly and operation (external plug for connecting the pump)
- Universal design suitable for all home installations
- Low noise level
- Low energy efficiency ratio $EEl < 0,20$
- High quality

MODEL	MAX. LIFT	ENGINE POWER	DIAMETER	MAX PERFORMANCE	DIMENSIONS	WEIGHT
OPTI 25-40/180	4,5 m	38 - 72 W	180 mm	46 l/min	180 x 125 x 110 mm	2,6 kg
OPTI 25-60/180	6 m	46 - 93 W		65 l/min		2,7 kg
OPTI ECO 25-40/180	4,5 m	5 - 22 W		46 l/min	180 x 155 x 90 mm	3,1 kg
OPTI ECO 25-60/180	6 m	5 - 45 W		52 l/min		3,2 kg
